WHAT DOES THE ONLINE COURSE COVER?

The objective of all SDE 11+ Courses is to offer a first-class, quality Course where every effort is made to address the student's weaknesses, to maximise his/her examination performance and to extend each student to her/his fullest potential so the child has the best possible chance of success in the 11+. Everybody at Susan Daughtrey Education is striving for excellence and every possible effort is made to achieve it.

Interactive teacher-student group work in class to provide an engaging dynamic online environment and to practise and reinforce problem-solving skills. The teacher will often guide the students through several worked examples before the students get an opportunity to complete some further questions independently. The teacher will then provide the answers and review the more challenging questions with the class.

The 36-week 11+ Online Foundation Course has been specifically designed to improve the personal performance and enhance the skills of those children who intend to join the 2026-27 SDE 11+ (Year 5) Course.

The SDE 11+ Online Foundation Course 2025-26 comprises 54 hours of tuition and involves the following:

- ✓ The Course begins with initial assessments in Mathematics, Verbal Reasoning, English and Non Verbal Reasoning that will give the child's parents a greater understanding of their child's strengths and weaknesses in these subjects (comparative data will also be provided).
- ✓ Material which has been specifically written by Susan Daughtrey M. Ed for the Course, and which is designed to improve the children's core mathematical skills. Emphasis is placed on mental mathematical agility and speed with multiplication tables.
- ✓ Vocabulary exercises which are designed to improve and expand your child's vocabulary and encourage the use of a dictionary will be set on a weekly basis.
- ✓ Relevant verbal reasoning exercises will be introduced that will not only familiarise your child with verbal reasoning techniques in a formal and structured environment, but which are fun to do.
- ✓ Comprehension exercises, designed to encourage your child to read with understanding, will be studied.
- ✓ Techniques for approaching all types of non-verbal reasoning question will be taught as part of the Course.

The Course is designed, not only to help improve your child's 'core' English, Maths, Verbal Reasoning and Non-Verbal Reasoning skills that he or she will need during the 11+ examination preparation in 2026-27, but to help improve your child's confidence and performance in all the important components of the GL Assessment® 11+ tests.

THE ROLE OF PARENTS/CARERS

The Course is demanding and requires significant effort, dedication and a positive attitude from your child. With these qualities, most parents report that their children enjoy the lessons, improve academically and develop strong study habits. Parents/carers are encouraged to play an active role in their child's learning, particularly by overseeing homework completion and using the provided 'Parent Homework Pack' to mark it.

WHAT DOES MY CHILD NEED?

All students will need a screen, a webcam and a microphone (mobile phone screens are not suitable for online lessons), together with a fast broadband connection. The student should work at a desk/table and be sat on a fixed chair in a quiet room. Students must be supervised by someone over the age of 18 years old being present in the house during the online lesson.

COURSE TUITION FEES

The total cost of the SDE 11+ Online Foundation Course, to include the cost of all online tuition, the assessments, the Prep Bag of books and resources provided as part of the homework programme and online learning resources and results recording is £1,830. The Prep Bag and resources will be posted half termly to any UK address (an additional fee applies for a non-UK address). The cost of the Course is payable in instalments, as follows:

- **£230 at Registration;** and
- **£200 monthly** for eight months, starting 1st November 2025 and ending 1st June 2026.
